

Clearly distinguished openings help eliminate contamination making your recyclables more valuable.

Barrel Topper

Put A Lid On It!

Public areas are filled with topless barrels - now there is an option to put a lid on it! The Barrel Topper is available with a variety of openings based on the stream you are looking to collect.

Permanent stamping on the opening means less maintenance and a clean sort. If you are collecting waste, a lid will lighten the load (and therefore cost) by avoiding rain which dampens and weighs down the contents.

ADDITIONAL FEATURES:

- Available in a variety of colors
- Openings include permanent stamping and choice of shape and color
- Contents stay dry
- Use existing containers for recycling or waste
